

# BigCut 25-125 - HEAVY DUTY PRODUCTION

- FAST AND EASY OPERATION
- SAFE AND RELIABLE
- WATER COOLING

## H-Line Cutters

The BigCut is a semi automatic heavy duty cutting machine designed to cut even the toughest hoses. It has a semi automatic hood protection, adjustable feeding- and prebend-system and an integrated cooling system for best cutting result. It is prepared with a smoke evacuation connection, a 15kW\* motor and a large Ø600 mm cutting blade to ensure cutting hoses with maximum outer diameter 180 mm.

## DIMENSIONS

Width/ Depth/ Height ..... 950x1300x1092 mm  
Weight ..... 473 kg

## DESIGNATION:

BigCut 25-125 EDII 400V 6" Cutter..... 9010-30-00-1

## PART NUMBER:

## SPARE PARTS:

Cutting blade HSM 600x4x80 Toothed ..... 9005-02-03  
Adapter ring, 50x38..... 9005-01-04  
Smoke evacuation system ..... 9010-01-00

## PART NUMBER

## TECHNICAL DATA

Hose Capacity - steel wire ..... 1" - 6"  
Max hose diameter..... 180 mm  
Motor..... 15kW  
Diameter (blade), ext..... 600 mm  
Diameter (blade), int ..... 80 mm  
Counter..... 0 - 9999 pcs  
Connection to smoke evacuation system ..... 100 mm  
Colour..... Black / Orange
